ROTOVAC
360™

CLEAN CARPET AND TILE...WITH EASE

The new Rotovac 360° power cleans both Carpet and Tile in an effortless self propelled side to side motion. Weighing in at only 39lbs., the 360° is super easy to operate and will produce tile and carpet cleaning results that will impress your customers every time. The telescoping handle and adjustable rpm speed control adapts to a wide variety of conditions for maximum cleaning performance and easy portability.

WORKS WITH ANY EXTRACTOR

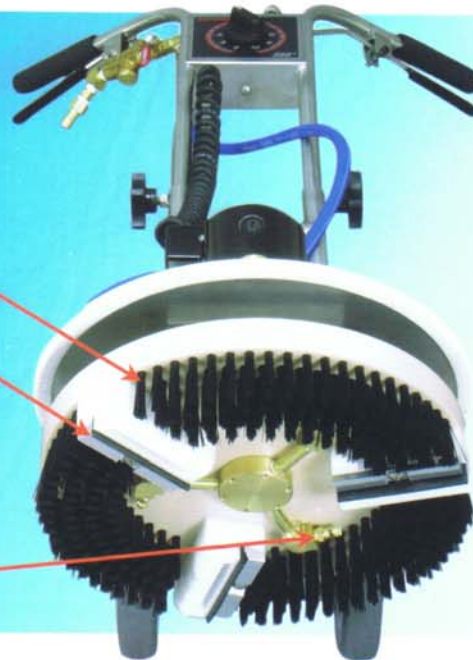

The Rotovac 360° does not require a special high pressure extractor to clean tile and grout. The 360° Tile Head utilizes a combination of rotary Nylon brush bristles, spray jets and vacuum slots to thoroughly clean tile and grout. The 360° works with any extractor from a standard 100 psi portable to the largest truckmount.
