

Powr-Flite®

Commercial HEPA Upright

True HEPA Filtration in a Commercial Upright!

- Washable, sealed HEPA filtration
- Brush view window
- Headlight
- On-board cleaning accessories
- Wide 15" cleaning path
- Quiet, long life commercial motor
- UL listed for commercial use

Improve the indoor air quality while vacuuming with the versatile Powr-Flite model PF82HF containing sealed HEPA filtration system. The PF82HF is UL listed for commercial use and includes a washable HEPA filter that captures dust and allergen particles down to .3 microns in size. The oversized diameter hose resist clogging and stretches to 10 feet. Additional features include a brushroll window to alert the user if the belt needs replacing, on-board cleaning accessories, a one piece handle, a quiet commercial grade motor, headlight and a 15" cleaning width. Model PF82HF features a bag lid safety latch to prevent operation of the unit without a bag in place. The perfect combination of features, power and filtration, the PF82HF is an excellent choice for hospitals, nursing homes and busy offices.
