

SmartVac™

464, 664 Battery Powered Vacuum Sweepers 24" and 32"

IPC Eagle

SmartVac™ 464

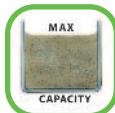

SmartVac™ 664

High Productivity

Up to 41,000 sq. ft./hr drastically cuts labor time. ROI in as little as 3 months

Large hopper capacity offers ten to fifteen times the capacity of upright vacs

Maintenance free sealed battery for up to 2.5 hours of continuous cleaning

Ultra quiet at 55 dBa can be used at any time day or night

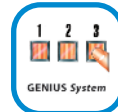

High Performance

Self cleaning filter system provides for optimum vacuum performance

SLS (Self Leveling System) automatically adjusts to any surface

Pre-programmed work settings provide optimum results for any application

Micro dust filtration to assure clean indoor air

Main brush special "V" shape and long bristle design to assure deep cleaning

SmartVac™

Ergonomic, User Friendly

On board battery charger

Easy to transport

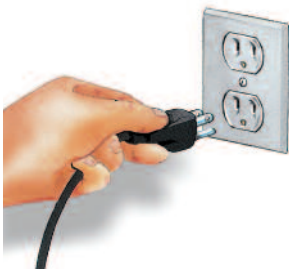

Easy to use control panel

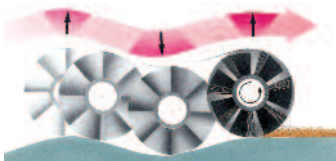

Adjustable handlebar

Easy to use with two work programs and a display with self-diagnostic data, battery charge status, and hour meter.

On-board battery charger. Enables the battery to be charged anywhere.

The brush automatically adjusts to any type of carpet or hard surface floors.

Low Maintenance Costs

Dust filter replacement without tools

Main brush replacement without tools

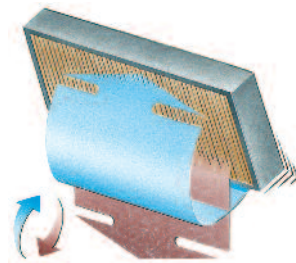

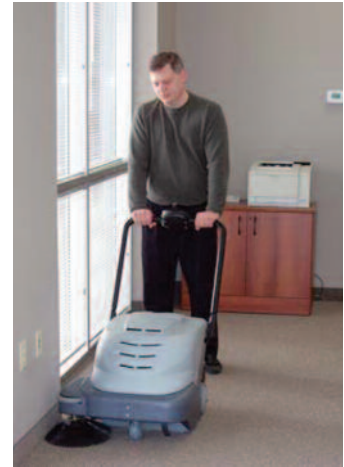

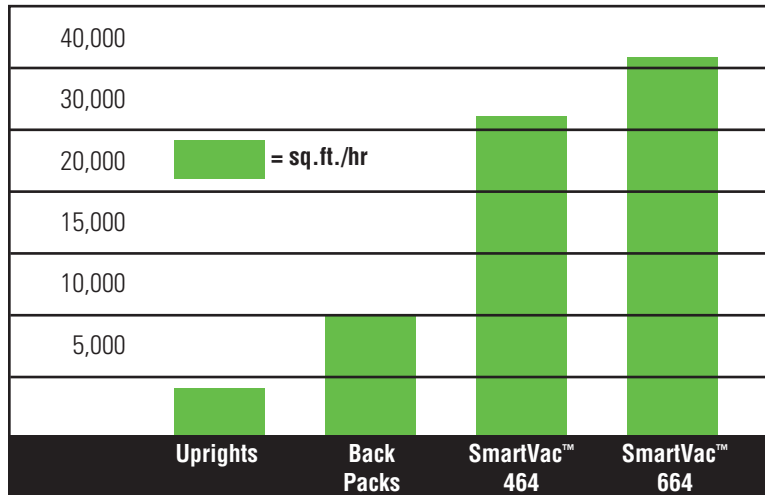

Side brush replacement without tools

SmartVac™

Incredible productivity—jobs that took hours, now take minutes.

Self-cleaning filter with cleaning frequency linked to the selected work program.

Vacuum shutoff for use when sweeping wet areas.

Return On Investment (ROI) You Do The Math!

	<u>Your Operation</u>	<u>Example</u>
Time savings per day	_____	3 hours
Average number of work days/month	_____	21 days
Total hours saved (savings/day x days/month)	_____	63 hrs. saved
Hourly Wage	_____	\$11/hour
Savings per month (total hours x total hourly wage)	_____	\$693/month
Cost of SmartVac™	_____	\$2400
Return on Investment (cost/savings)	_____	3.5 months

SmartVac™

The large diameter brush is easily removed without tools.

High volume airflow removes more soil

The large diameter brush safely flicks the surface to release soil. The long bristles on the brush create a high volume airflow in conjunction with the high CFM vacuum blower to effectively carry away soil. This combination offers incredible soil removal capabilities.

Designed to assure minimum noise levels

Low noise vacuum fan.

Micro Dust Filtration

Filter with incorporated rubber gasket for maximum control of dust. Pre-filter also equipped to catch large fibers.
